

Change Site Theme

In the top left corner, click the **Site Actions** and then **Site Settings** at the very bottom of the list.

Under **Look and Feel**, click **Site theme**.

On the **Site Theme** setting page, you can make the following choices:

Inherit Theme

Select a Theme: Select the color theme.

Customize Theme: Make changes to select theme.

Preview Theme

Apply Theme: Select whether this theme is for this specific site or if it will be applied to all sites that inherit settings from this specific one.

Click **Apply**.
